### MP3-CD Format

#### ***To use, follow these easy instructions:***

**Insert the MP3-CD into your computer's disc drive. Wait a few moments and it should self-launch. If not, open your Explorer window (or 'Finder' if you are on Mac) and select the CD or DVD drive. This will open a folder containing all of the MP3 files. To play, select a file and Right-click on it. On PC, a side menu will appear. Select either iTunes or Windows Media Player (which ever you prefer). To listen to a different audio file, return to the folder and select a new one. On Mac, Double-click on the audio file and it will automatically open in iTunes.**
